

2020 MIPS Quality Category Measures for Ophthalmology

Physicians must report on 70% of all patients, if reporting via registry or EHR, and 70% of all Medicare Part B patients if reporting via claims.

Physicians must report a minimum of 6 measures, with at least one being an outcome measure, if available. If no outcome measure applies to the clinician, he or she would report one “high priority measure.” “High priority” measures are certain CMS-designated measures that include all outcome measures.

Other Available Measures

CMS continues not to require that one of the quality measures be a cross-cutting measure. However, measures that are deemed cross-cutting are still available for physicians to report.

NQF/PQRS Number	Submission Method	Measure Type	Measure Domain	Measure Title
0018/236	Claims, Web Interface, Registry, EHR	Intermediate Outcome* (high priority)	Effective Clinical Care	Controlling: High Blood Pressure

*Intermediate outcome measures are considered outcome measures.

Ophthalmology Quality Measure Benchmarks

Each decile includes a range of performance rates. Deciles without benchmarks (denoted by a --) indicate that there are no scores available in that decile.
